

New! Anti-VHH Probe for BLI

Quantitation, and Kinetics of camelid single domain Abs

At Gator Bio, we are persistently innovating and pushing the boundaries of BLI technology. Check out our latest offering: The Anti-VHH probe for direct capture of camelid single domain antibodies.

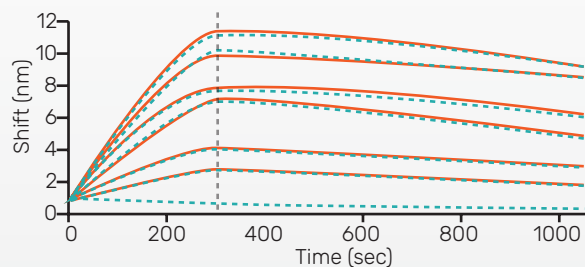

Quantitation

Dynamic range of 0.05-10 µg/mL

Off-rate Screening

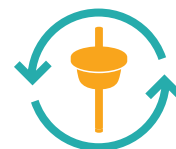

Off-rate screening of VHH against target antigen

Recognizes nanobodies
from camelid species

Tag free

Regeneration up to
10 times
